🔗 Portfolio

Profile

Motivated and adaptable Higher National Diploma in Information Technology (HNDIT) undergraduate at SLIATE with hands-on experience in software development, web development, database management, and information systems through academic and personal projects.

Skilled in developing user-focused software solutions using programming languages, web technologies, databases, and modern development tools. Strong analytical thinking, problem-solving, teamwork, documentation, and attention to detail, with the ability to learn and adapt quickly to new technologies and working environments. Passionate about applying technical knowledge to real-world challenges and continuously developing professional skills.

Currently seeking an IT internship opportunity to gain practical industry experience, contribute effectively to organizational goals, and build a successful career in the IT industry.

Education

Higher National Diploma in Information Technology - Current GPA 2.78

2023 - Present

- Sri Lanka Institute of Advanced Technological Education
Advanced Technological Institute - Tangalle

G.C.E. Advanced Level — Technology Stream

2020 - 2023

- Science for Technology (SFT) — C | Information & Communication Technology (ICT) — C | Engineering Technology (ET) — S

G.C.E. Ordinary Level

- Health & Physical Education — A | Citizenship Education — A | Drama & Theatre — B | Mathematics — C | Science — C | History — C | Religion — C | Sinhala — C | English — S

Core Competencies

- Full-Stack Web Development • Front-End Development • Object-Oriented Programming (OOP)
- RESTful API Integration • Database Design & Management (SQL, NoSQL) • Authentication & Authorization
- Responsive UI/UX Design • Version Control (Git & GitHub) • Agile Development
- Software Development Life Cycle (SDLC) • Problem Solving & Debugging • API Testing (Postman)
- Cloud & Real-Time Database Integration (Firebase)

Projects

Ceylon Voyage — Full-Stack Travel Agency Web Application — Personal Project

- Developed a full-stack, production-style travel agency web application using Next.js, React.js, and TypeScript for a scalable, component-based architecture.
- Built a fully responsive UI with Tailwind CSS and ShadCN UI, ensuring cross-browser compatibility and a consistent user experience.
- Integrated Firebase Firestore for real-time NoSQL database operations and Firebase Authentication for secure user login and session management.
- Designed and implemented a role-based Admin Dashboard with full CRUD (Create, Read, Update, Delete) functionality for content and booking management.
- Implemented multi-language support (English/Sinhala) and multi-currency support (USD/LKR), improving accessibility and localization.
- GitHub: [Ceylon-Voyage---Modern-Travel-App](#)

E-Learning Online System — Individual Project

- *PHP | MySQL | HTML5 | CSS3 | JavaScript | Bootstrap | XAMPP | Git/GitHub*
- Developed a web-based e-learning platform for managing users, courses, lessons, enrollments, and payments.
- Implemented role-based access for students, teachers, and administrators with authentication and session management.
- Designed a MySQL database and developed secure, responsive web interfaces.

Rider's Car Rental Management System — Group Project

- *C# | Windows Forms | SQL Server | Visual Studio*
- Developed a desktop application to manage customer registration, vehicle rentals, bookings, and payments.
- Integrated SQL Server for managing customer, rental, payment, and user records.
- Implemented user authentication and database-driven rental management features.

Technical Skills

- Programming Languages - HTML, CSS, Java, JavaScript, PHP
- Databases - MySQL
- Version Control - GitHub
- Tools - Figma, Visual Studio Code (VS Code), IntelliJ IDEA, WordPress
- Concepts -Object-Oriented Programming (OOP), Agile Development

Soft Skills

- | | | |
|---------------------------------|--------------------------|-------------------------------|
| • Time Management | • Problem-Solving Skills | • Strong Communication Skills |
| • Quick Learning & Adaptability | • Team Collaboration | • Multitasking Abilities |

Certificates & Courses

- MERN Stack Development — SKYREK

Experience

IT Contributor (Part-Time) — TITSA IT Association, Tangalle

2025 – 2026

- Built and maintained software projects using modern programming languages and frameworks, contributing to departmental IT initiatives.
- Collaborated with cross-functional teams on technical projects, strengthening Agile development, communication, and version-control practices.
- Supported troubleshooting and technical documentation for departmental IT activities, reinforcing problem-solving and time-management skills.

Languages

Sinhala — Native | English — Professional Working Proficiency
